Summer course Population Health Management: Implementation

Agenda

1. **Learning objective**
2. Implementation: definition, aim, nature
3. Implementation: a brief overview
4. Implementation of PHM
5. Q&A

Learning objective

To provide course members knowledge about the *new* ways of implementation

To conclude

If implementation is complex and PHM is complex, then implementation of PHM is complex**xx**

One needs to define and apply a comprehensive implementation strategy in order to *describe, understand/explain & evaluate* PHM (and its implementation)

One needs to define and apply a comprehensive implementation strategy in order to align the *programs, principles & process* of PHM (and its implementation)

Thank you!
